

# Architects at MuleSoft CONNECT 2018

## Benefits to attending

As an enterprise architecture and technology innovation leader, you must scale your role to meet growing digital business expectations. At MuleSoft CONNECT, discover the technologies, tools, skills, best practices, and digital innovation strategies that today's IT leadership requires—and learn how to apply those insights to your own organization's goals and needs.

### Get actionable insights from practitioners and industry experts on how to:

- Respond to industry trends like microservices, containerization, hybrid deployment, and DevOps
- Fast track your API and integration strategy through one-on-one with experts
- Get answers to your development questions and learn technical tips and tricks from MuleSoft architects, engineers, and product leads
- Gain valuable hands-on experience through technical training, deep-dives, workshops and self-paced labs
- Network with the MuleSoft community and learn directly from expert users

#### Expert-led learning

Get deep technical education from the experts. Learn how to build microservices and master complex integrations from MuleSoft engineers, product leaders, and the dev community.

#### Get hands-on

Show off your skills (and learn some new tricks). Facilitated by technical experts, hands on exercises give you a chance to learn on the spot and win prizes.

#### Consult experts

See the latest demos and product innovations, tinker with IoT/connected devices, get your technical questions answered 1:1 with the support and services teams, and learn how to leverage community resources.

## Featured speakers

**Tim Berners-Lee**

Inventor of the World Wide Web

**Sabeen Ali**

## Top architect sessions

Experience these sessions (and more!) led by expert peers and industry thought leaders, including Tim Berners-Lee, inventor of the World Wide Web, AngelHack CEO Sabeen Ali, HSBC CIO Darryl West and Gartner analyst Massimo Pezzini.

- Adopting Microservices: Stories of Success and Failure
- Architecting Reliability and Visibility into Integrations
- Managing, Governing and Securing your APIs
- Product Vision and Roadmap Keynote

## Recommended training session

- Anypoint Platform Architecture: Application Network + Special Workshop

 View agenda

We're growing our group massively and by coming here, we get to hear more directly what the roadmap is for Mule and what the strategies are, how you interconnect with your customers. As far as attending connect next year, not only will I attend but I would like to see even if we could attend at a higher level.

Director EAS-IPM Alliances,  
Cognizant  
1st time conference attendee

This is my third MuleSoft CONNECT. I think it's a good chance to meet up with people from other industries and see what they're doing. I thought the keynotes were very interesting. It was nice to hear leaders from other industries besides ours, from Uber to Capital One and DocuSign. It was nice to see how they apply and how they use MuleSoft. I thought that was really interesting and helpful.

Program Management,  
Cisco  
3-time conference attendee

## Pricing

Register now to get your full conference pass at the best price. Training is offered as a pre-conference educational program where additional fees apply.
